Preface

Your Printer is a Teriostar LP-2050 Series Wide Format Printer.

This manual describes the basic operation methods for both the LP-2050 and LP-2050-MF models. For more detailed information, see the User's Manuals on the supplied CD-ROM. Keep this guide in a place where you can easily read it when required.

5

Set the original

Position the original facing down. Set it in the Printer aligned with the original width guide. The inserted original is automatically pulled into the Printer, and set.

Importing Images (Documents) to a Computer

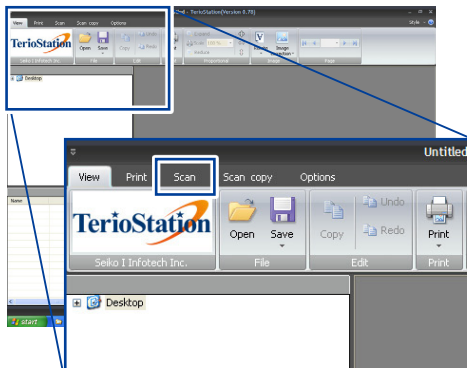

MF

1

Double-click **TerioStation**.

2

Click the **Scan** tab.

3

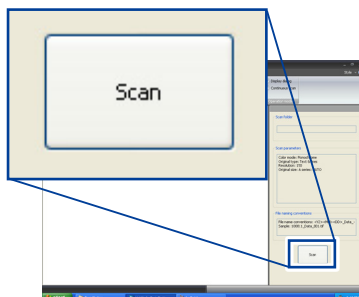

Click **Save Folder**.

4

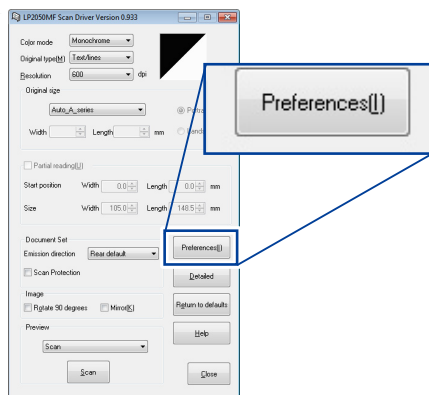

Select the destination folder to save the scanned data. Click **OK**.

5

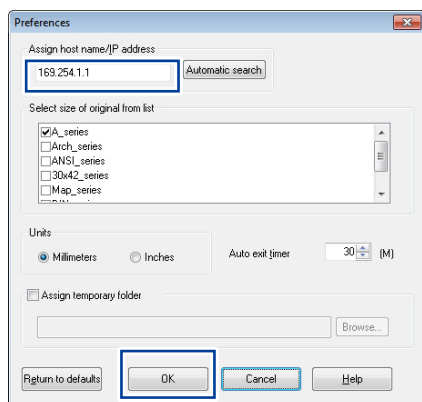

Click **Scan**.

6

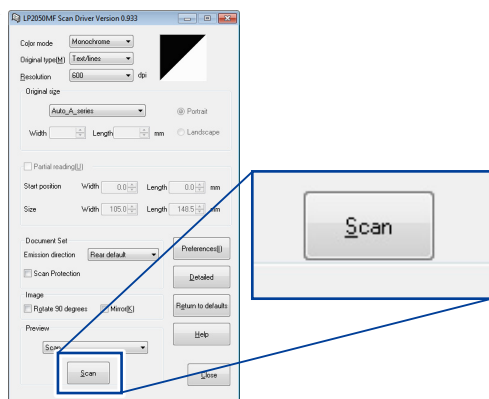

Click **Preferences**.

7

Input the Printer IP address in the **Assign host name/IP address** field. Click **OK**.

8

Set the scan conditions, and then click **Scan**.

9

Load the original.

Important

- ◆ If "Scanner is operating in another mode" is displayed, press SCAN on the operation panel.
- ◆ If "Color processing is not supported because the scanner being used is a dedicated monochrome device" is displayed, you cannot scan in color mode.

1

Start the web browser and enter "http://(IP address set on the Printer)" in the address field. Press **Enter**.

2

Click **English**.

3

Click an item from the left menu to check the settings or Printer status.

When an Error Message Appears

Take the action specified by the panel message.

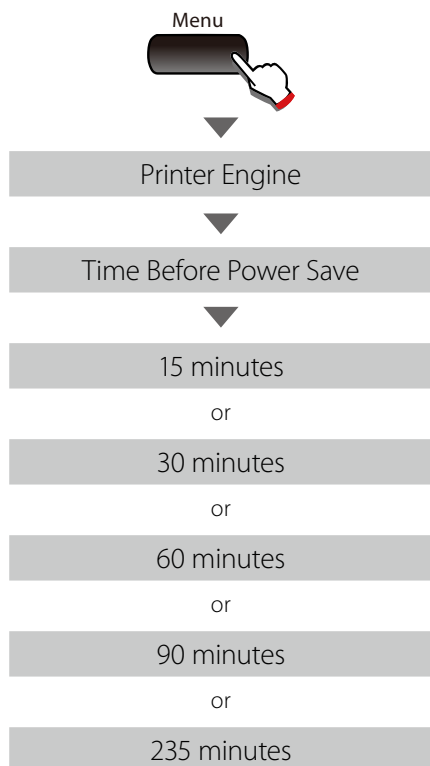

Or see the *User's Manual for Basic Printer Operation, Chapter 4*.

Smears on a Printout

Replace the process cartridge. (📖 page 12)

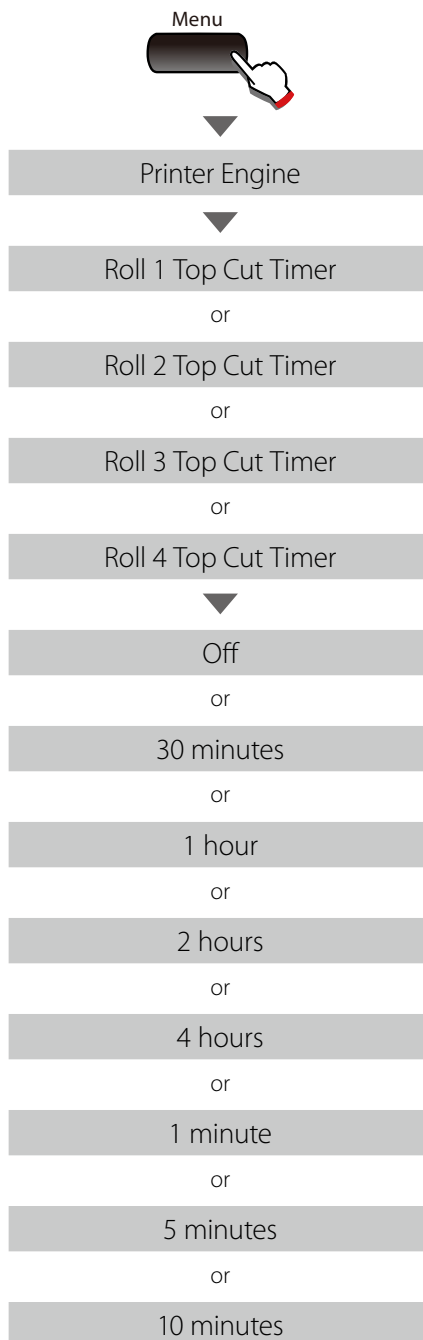

Changing the Time Until Power Save Mode

Set **Time Before Power Save** in the Printer Engine menu.

Automatic Paper Cutting After a Certain Time

Set **Top Cut Timer** in the Printer Engine menu.

Automatic Paper Cutting After Opening and Closing a Door

Set **Top Cut at Door Open** to **On** in the Printer Engine menu.

Changing the Print Density

Set **Print Density** in the Printer Engine menu.

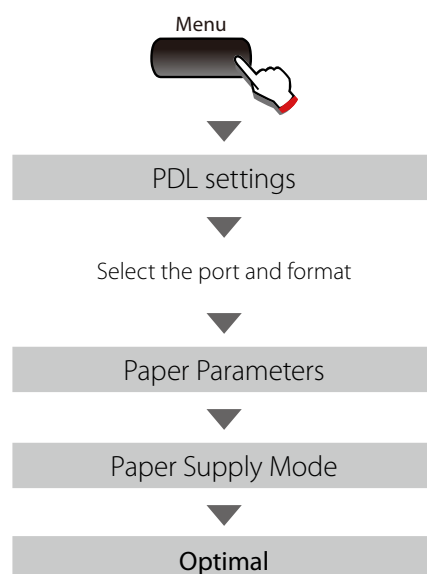

Wrinkles on Tracing Paper

Set **Humidity for Tracing Paper** to **High Humidity** in the Printer Engine menu.

Selecting Paper to Match the Print Data

Select **Optimal** at Paper Supply Mode.

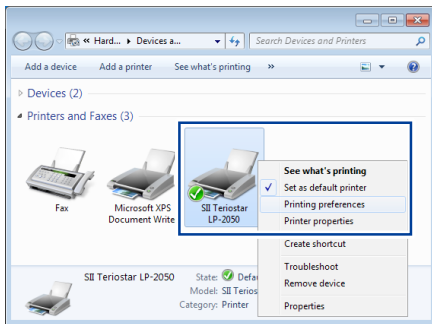

Missing Print or Slow Data Reception

Change the driver settings.

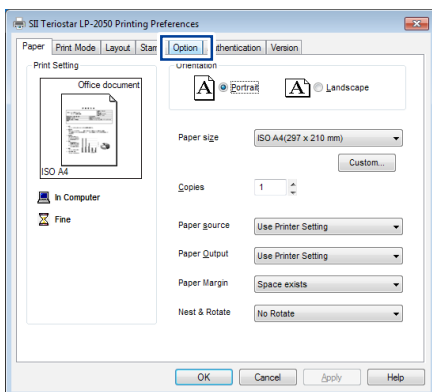

1 In **Start Menu**, open **Devices and Printers**.

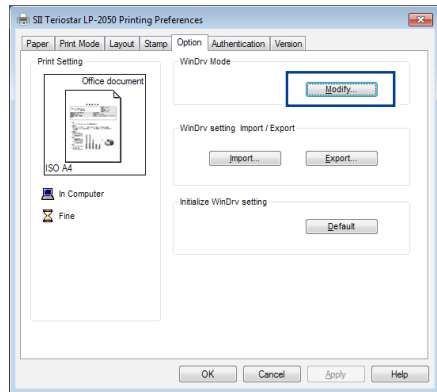

2 Right-click the **SII LP-2050** icon, and then click **Printing Preferences**.

3 Click the **Options** tab.

4 Click **Change** in the operation mode of the driver.

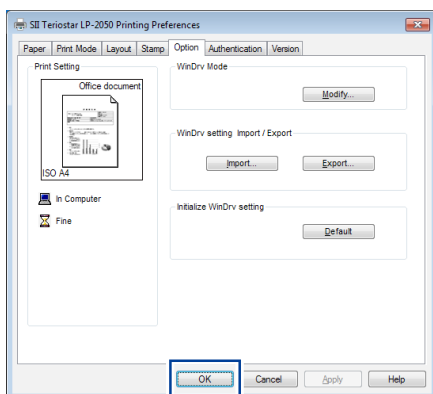

5 Change the output process selection from **Process with Printer** to **Process with Computer**. Click **OK**.

6 Click **Apply**.

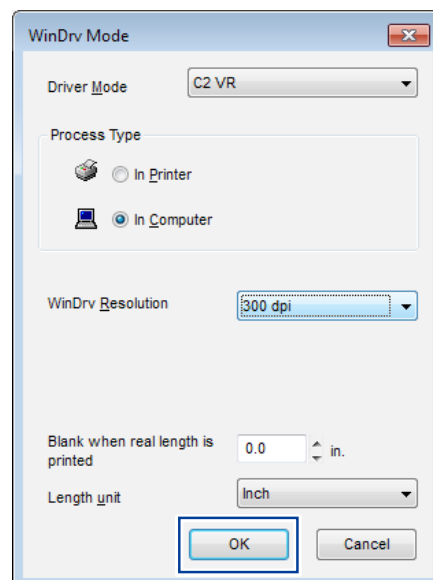

7 Click **OK**.

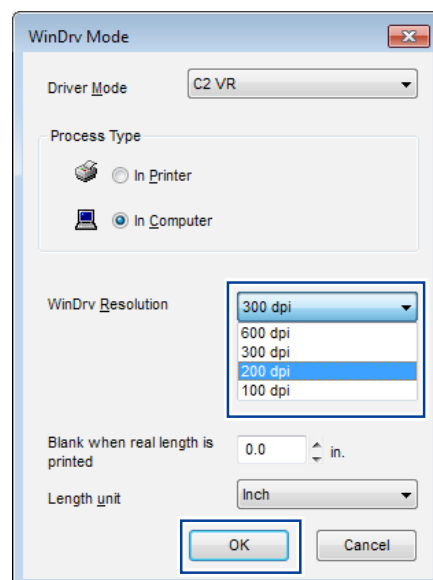

8 Print.
If the symptom persists, perform the following setting operation.

If the problem persists:

1 Perform steps 1 to 4 and open **Driver Operation Mode**.

2 Set the resolution of the printer driver to **200dpi** or **100dpi**. Click **OK**.

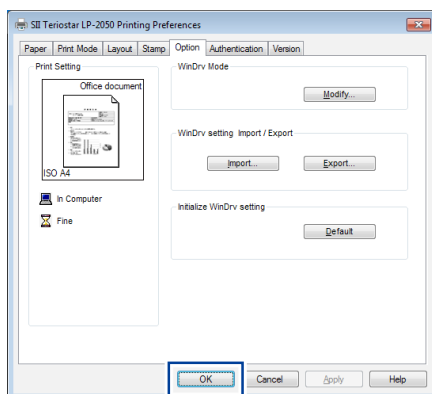

3

Click **Apply**.

4

Click **OK**.

5

Print.

The User's Manuals and driver are on the supplied CD-ROM.

Disposal Method

Dispose of the used toner cartridges and waste toner bottles according to the local regulations.

This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment.

This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications.

Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

The CE mark, that shows that the products sold in the EU are conformed to the requirements of EC directive, is statutorily obliged to be affixed to the products.

In each directive, the scope of directive to be applied to equipment is explicitly defined. Our company's product LP-2050 series conforms the EMC directive (2004/108/EC), low voltage directive (2006/95/EC) and RoHS Directive 2011/65/EU.
